Cytomegalovirus infection in non-Hodgkin's lymphomas and Hodgkin's disease. Serial serum samples obtained from 45 patients with non-Hodgkin's lymphomas (NH-L) and 17 patients with Hodgkin's disease (HD) were assayed for cytomegalovirus antibody (CMV) titer by the immunofluorescent antibody technique. All of the patients had been taking the CMV hyperimmune globulin (CMVIG). No serological evidence of a CMV infection was found in any of the samples taken during the hospital stay, except for the 25% of the patients with HD who had received low-dose cytotoxic therapy (LDCT). Only 4 of the 29 patients with NH-L and 2 of the 18 patients with HD had, on admission, an undetermined titer of CMV antibody. The other 25 patients (22 with NH-L and 3 with HD) had a determined level of CMV antibody. A titer of 1:64 or more was found in all but two patients with NH-L: one had a titer of 1:64 and the other a titer of 1:80. In contrast, no patient with HD had a titer of CMV antibody that was higher than 1:32. The results showed that there were no significant differences in the titers of CMV antibody present in patients with NH-L and those with HD. Also, there were no significant differences between the serum CMV antibody titers in patients with NH-L who died in the hospital and those who were discharged after intensive chemotherapy.

Thursday, September 9, 2009 Books in the Hurdle * See here for a piece I wrote yesterday concerning my struggles with the textbook selection process. There's a new item on my hit list -- "Humanities and the West: Theoretical Perspectives." I've read the book reviews, which are not the best, but I'm a good reader and fairly sharp with the Internet. I saw that the publishers had put out a new edition of a much-praised book, "The Cultural Logic of Late Capitalism," but I'm not convinced that I want to bother. It's certainly pretty. But I can't bring myself to shell out \$40 at the moment -- it's too much money for me to feel like it's an intelligent purchase at this point. * I wanted to read something serious to read before the first bell rings tomorrow. Haven't had a chance to look for one yet, but I thought I'd mention the wonderful "The Exquisite Corpse" by Eliot Weinberger, which I recommend to all those who like to get their literary legs under them. It's one of those books that you'll find yourself returning to again and again, without fail -- I picked it up over the Christmas holidays and read it all the way through over Thanksgiving. I know that this kind of thing comes in vogue right now, but I think it's a dangerous trend, because what I liked about this book was precisely that it didn't have to be "serious" in order to be serious. And so I think you should listen to me. * The Pittsburgh Pirate game will be broadcast in HD tonight, and my wife told me that one of the announcers said something
