The Insane 2 game genre is popular amongst teenagers and young adults, but has been translated by Sony from its original German title of Insane 2: Dirt-Laden. I'm putting this in here anyway. Pros: - The medium-difficulty puzzles are fairly challenging but don't get too frustrating. - The game is surprisingly addictive. - Interesting contents. - Indispensable for spaceship lovers. What I'm saying is that I'm not sure how people can rate it as 1 star. I guess this was placed in the wrong section. I recommend this game to people who enjoy building space structures and puzzles. Ninnu 08 July 2018 I would only give this game a 5/10 if I was smart enough to realize that I really liked this game. If I was smart I would give it a 6/10 since I liked it, it's just c9d1549cdd

of Pelham's Past... How Reaching for the Ceiling Led Downward to Protecting Millennials In a lively conversation at the ERIC Web Summit in Silicon Valley, the president, CEO, and co-founder of the advocacy group Millennial Money spoke from the heart about the assets of that generation and why the oldest of us need to take seriously the struggles of the youngest. The conversation actually started—so help me, I didn't know I was going to do this—when co-founder Sara Sosland was asked by a girl under the age of 25 if she'd ever done something stupid and/or irresponsible before the age of 25. "I think we've all done that," Sosland replied. "Especially as someone who has spent a lot of her time in her twenties helping millennials." "You've done that? Helping millennials?" the girl echoed. "That's awesome!" At which point the president nodded a bit solemnly and spoke the next bit of her prepared text: "Being in our wheelhouse is a bit of a privilege; we haven't personally struggled. What we've worked through is immensely frustrating." And then she

began the story of her brother, a younger man who at one point got behind on rent—that is, before she persuaded him to get a job and use his money to catch up on the rent. “The part where we grew up was incredibly supportive, but [like] all parents the important thing for her is that she’s not making the same mistakes we made and so there’s something to gain for her if she realizes that.” Sosland, a self-proclaimed former resident of the University of Michigan’s university-owned dorms (she also lived in a space for 26 years and was dubbed “Dorm Mom”) talked about her own experiences with the struggles of her kind and they’re a mixture of things on which millennials must rely. That’s the gift of her position. For example, she said, millennials have had to figure out new places to practice financial responsibility and professionalism, even though they’ve grown up going to education institutions where both were assumed, as is required by their financial aid. “We weren’t really there
