[Every round is a level. At the end of each level, you'll receive a combination. Each combination will unlock a new level, as long as you have enough colours. The aim of the game is to keep advancing in order to gain access to the higher levels.] Objective [The objective is to complete as many levels as you can. But that's not all! In order to achieve the ultimate goal, you'll also have to survive for as long as possible. So collect all the pills as you can, before the controller blows up!] Rules [You can eat only the pill in front of you. If the pill is poisonous and you consume it, you lose that round and start over. If the pill is safe, you have until the buzzer sounds to eat it.] WARNING: [If you find yourself stuck with none of the pills safe, you'll be forced to consume the safe pill. But if the pill in front of you is poisonous, you are dead. So do not panic. Give yourself plenty of time to think. If no one has died and the pills all safe, it means you won and congratulations. That's not all! If you survive the round, you'll be in the next round. But if you don't, it's game over.] Setup [You are given 8 pills. Each round, you'll be given a combination of 4 colours. You'll be tested to see which pills are safe and which are poisonous. If a volunteer dies, you can move to the next round. You'll start with the first column on the table of pills. If you have to guess, you'll get fewer chances to eat the pills. If you're lucky and don't eat any poisonous pills, you'll advance to the next round. But if you eat a poisonous pill, you lose that round and start over. If you find yourself stuck with none of the pills safe, you'll be forced to consume the safe pill. But if the pill in front of you is poisonous, you are dead. So do not panic. Give yourself plenty of time to think. If no one has died, you'll advance to the next round. But if any volunteer dies, the game is over!] Question: [How long do you think it will take you to complete all the levels? In other words, how many pills do
