Litecoin. Ethereum.Q: How to get the builtin function `sec` instead of the `sys.float_info` method? I am using the builtin function sec(x). The documentation indicates that the builtin function uses float_info. How can I get the builtin function sec(x) instead of the float_info.py method? A: To get the built-in function sec in python 3.4+ : from

`__builtin__ import builtins builtins.sec #1.5` For previous versions use : `import math math.sec` The charges come after the city received a tip from the public that officers "were seen on various city streets drinking beer," according to CBS Cleveland affiliate WOIO-TV. "We received information that city police officers were drinking beer on city streets," the police department said in a news release. "We confirmed that several officers were on city streets drinking beer in a threatening manner and initiating contact with citizens. They were wearing their patrol uniforms and carrying their badges." Cleveland police arrested 14 officers on Wednesday and they've been suspended without pay. Get Breaking News Delivered to Your Inbox The department is also investigating the circumstances surrounding the arrests. "At this point in time, we are going to do everything that we can to figure out what happened," Cleveland Police Chief Calvin Williams told WOIO-TV. "And we are going to make sure that no other officers did anything wrong. "We
